

Twilight Switch

JAYASHREE
ELECTRON

Jayashree has recently introduced a Reliable and Robust Automatic Ambient light detector switch. This equipment incorporates a *Twin Sensor* technology to avoid false nuisance sensing.

Features:

- * Advanced Twin-Sensor Technology
- * Can operate single phase as well as three phase loads.
- * Robust weatherproof IP-65 construction for wall mounting.
- * Works on 240V AC, 50 Hz supply.
- * Light Level adjustment from 2 Lux to 100 Lux.

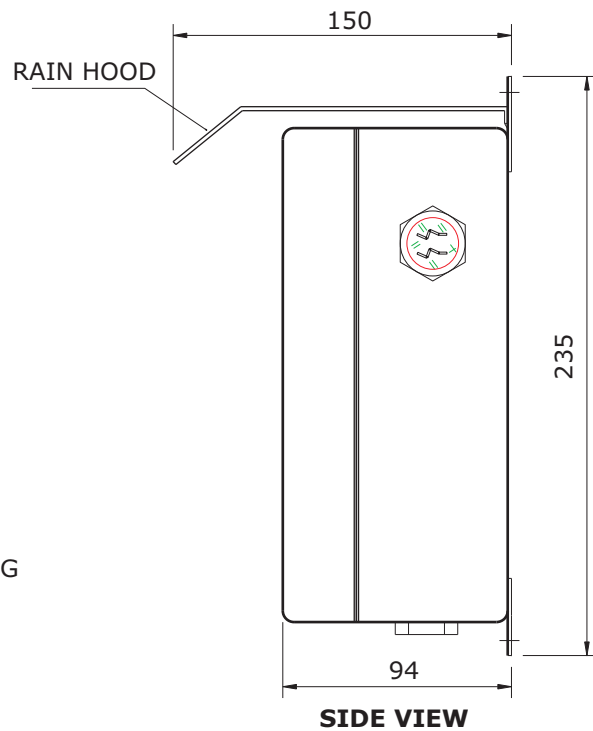

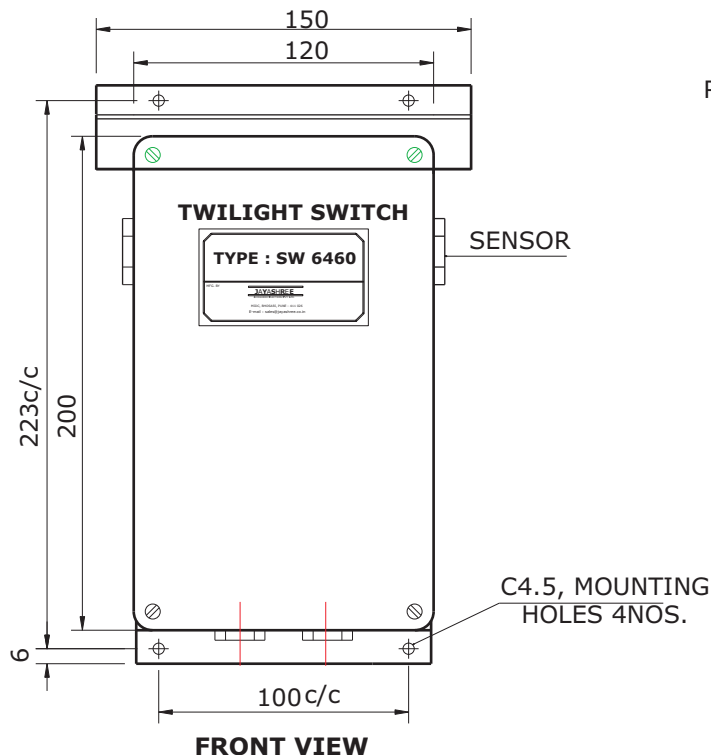

Specification

- * Enclosure : ABS Plastic
- * Protection Grade : IP-65
- * Supply Voltage : 240V AC
- * Output Contacts : 2C/O
- * Contact Rating : 5 A Resistive at 240V AC

Applications

The Twilight Switch is useful for Automatic switching of loads such as

- * Street Lights
- * Flower beds
- * Signboards
- * Monuments
- * Public Places such as Gardens and Water falls.
- * Heritage Buildings
